e-KHOOL

e-KHOOL
Next-gen learning platform

AI-integrated & blended service platform for online learning management system

We believe that together with our customers, we are creating a new generation of learning platform fueled by artificial intelligence and micro-services architecture.

#1 Cloud based Learning App

AI-based learning

e-khool software is able to improve learners' experience by offering the patented technologies for advanced learning experience. AIRA assisted online learning and virtual exam hall through artificial intelligence technologies can have the capability of keeping our learners with our platform and ensuring the live training to reduce the drop out ratio of learners. It can help the institute to get pan India enrolment because of a robust learning platform.

The R.P.A Central (CBSE) School is a shrine of learning that well promotes the education with visionary teachers as friends, philosophers, mentors and inspiration leaders.The administration comprised of devoted, experienced, NRI scientists and inspiring academicians with rich and proven educational records and enviable legacy and service to the cause of humanity.

The R.P.A Central (CBSE) School

A B Patil school has a dream of providing holistic technique, and controls the status among Personality development, Analytical skills and Academics to students. The major inspiration of the school is to develop the upcoming leaders from growing children's with ethical principles and deep rooted moral by a scientific technique.

A B Patil school

Patented platform for learning experiences
